🪪 PROFILE

I'm a Software Engineering student at HITEC University, currently in my 6th semester. I've built academic projects including a Blood Donation System using Java AWT and Swing. Skilled in Java, C++, Python, and Object-Oriented Programming, I'm focused on growing my development skills and Eager to learn Game Development

📁 PROJECTS

Music/Song Website
Currently developing using HTML, CSS, JavaScript (Web Engineering methods)
present

Blood Donation System
Developed using Java AWT and Swing

Charity Management System
Built using PHP and SQL

AI Snake Game
Implemented using A* (A-star) algorithm

Music App
Developing in Android Studio using Java and XML
present

🎓 EDUCATION

Software Engineering | BS
HITEC University
2022 – Present | TAXILA, PAKISTAN

ICS | Intermediate
IMCB
2020 – 2022 | ISLAMABAD, PAKISTAN

Computer Science | Matric
IMCB
2018 – 2020 | ISLAMABAD, PAKISTAN

🧠 SKILLS

Skill	Level
Java (AWT, Swing)	●●●○○
Object-Oriented Programming (OÓP)	●●●○○
C++	●●●○○
Python	●●○○○
Html, CSS	●●●○○

🎸 HOBBIES

- Photography
- Gaming
- Coding
- Exploring tech gadgets
- Watching development tutorials

⭐ STRENGTHS

Quick Learner

Team Player

Adaptable

Good Problem Solver

Meets Deadlines
